Superintendent of Schools

ALBERT P. KNIGHTLY

Superintendent's Report

To the Superintending School Committee and the Citizens of the town of Stewartstown:

General

School is democracy's greatest gift to civilization. Throughout the world, among upward struggling people, wherever parents share in the aspirations of their children, schools flourish. But let us not think that an education is acquired only in schools. Education is a part of life—a continuing process.

Children grow up but once. Today's children must start their education in today's schools. Ours is the responsibility of supplying a school that can respond to the needs of the times.

You have locked in your heart your secret hopes and ambitions for our boys and girls. Someday you will find expression for your desires, then the boys and girls, as well as the rest of the community will know your feelings by the support that you give to your own schools.

The next time that you pass a school house pause a moment to think what school means to humanity.

Teachers

The following changes occurred in the teaching personnel of the district: Margaret Edgar, Kathleen Lord and Barbara Greenwood fill respectively the vacancies at Bear Rock, Hollow and North Hill Schools, all were graduated from Plymouth Normal School and the former has had previous teaching experience. Ruth Travers of Keene Normal was selected to fill the vacancy at Cedar Brook School. The enrollment (124)

at West Stewartstown was so large that it became imperative that the fourth room be finished off. Sybil Porter was added to the staff as teacher for the third and fourth grades. During the Christmas recess Cleora Stillings Richardson and Ruth Gray Weeks resigned and were replaced by Lee Hallowell in the upper grades and Pearl Raymond in the primary room.

Buildings and Equipment

The condition of the buildings is for the most part greatly improved. The Cedar Brook and Hollow Schools were completely redecorated inside. One side of the roof at North Hill was shingled and the Bear Rock School was papered. At West Stewartstown the building was completely redecorated inside and painted outside; the building was also shingled. By adding the extra room it was necessary to finish off the walls and ceiling to build in cupboards, a cloak room, and to install blackboards, radiation, curtains, maps, seats and a teachers desk. Also numerous other minor repairs were made on the buildings.

Enrollment and Attendance

There are now 183 enrolled in our elementary schools, of which 116 are at West Stewartstown and the remaining 67 in the rural schools. This is an increase of 11 over the same period last year. The number of tuition pupils is the same as of last report, namely 37.

The attendance records were for the most part satisfactory. Cedar Brook maintained a 96 per cent record. West Stewartstown Grammar had a very commendable tardiness record having only five for the 180 school days.

Health

The primary purpose of health work in Health education is conceived as teaching how to live. If this were not so, there would be no justification for placing the service in schools.

The health service program of the school—the examination, the follow-up, weighing and measuring, the dental clinic, the methods of communicable disease control, the plans for a healthy school environment—all offer opportunities for students to learn to live healthfully.

There is only one way to learn to live healthfully and that is to practice living healthfully.

In recent studies made by the American Child Health Association to determine the effectiveness of the school health program, large groups of children were studied to determine their freedom from defects, their health practices, and to find out what factors most influenced these conditions. The one factor found to have the greatest significance was the nurse-teacher relationship. When the parent, the teacher and the nurse work together the closest, it is reflected in a better health status of the child.

Notes on the Budget

The total amount of the School Board's 1937-38 budget is \$16,311.21 as compared with \$14,749.21 for 1936-37. The estimated income for the coming year is State Aid \$5,294.00, Tuition \$55.00 and Dog Licenses \$40.00 or a total of \$5,389.00. Approval of the budget would therefore require that \$10,922.00 be raised by taxation.

All the items in the budget remain practically the same as in former years except for the additional cost of running the extra room at West Stewartstown and the increased tuition due to increasing numbers attending High School.

The School District's outstanding indebtedness is \$5,700.00. This should be reduced some each year if possible.

Conclusion

I wish it might be possible for everyone to visit

the schools at least once during the year, and become acquainted with what the school is trying to do for your children.

I take this opportunity to express my appreciation to the members of the school board, parents, teachers and citizens for the countless courtesies and hearty cooperation during the past year.

Respectfully submitted,

ALBERT P. KNIGHTLY,

Superintendent of Schools.
